

*Thinner than any silver layer...*

*More performance than zinc plating...*

*Able to protect metal components in  
a single coat, it's...*

***Magni 501 is a single coat zinc-rich fastener coating system replacing zinc plating and trivalent passivation***

- *Exceptional corrosion resistance*
- *Cost-competitive*
- *No hydrogen embrittlement concerns*
- *Consistent torque tension relationship*
- *Resistant to automotive fuels and fluids*
- *Excellent adhesion*
- *Paintable*
- *RoHS, WEE, ELV and REACH compliant*
- *No waste treatment*
